

Item Category and Product Reference Guide

Document: MRG-REF-001 | Version: v1.0 | Effective: March 1, 2026 | Last reviewed: February 15, 2026

Purpose

This guide maps every item ID used in company sales and forecasting data (Items 1 through 50) to its product name, merchandising category, and seasonality notes. All downstream policies in this manual (restocking, seasonal merchandising, discontinued items) reference items by these same IDs and category names - treat this document as the canonical lookup.

Item Reference Table

ID	Product Name	Category	Notes
